

WHY ADOPT FROM A SHELTER

You save more than one life!

There simply is not enough homes for all of the animals that are born every year. By adopting from a shelter you help save an animal from being possibly euthanized and help open up a spot for another animal to be taken into the shelter.

It helps reduce cruelty from mass-breeders!

There are thousands of commercial pet breeders, these are often known as puppy/kitten mills. These facilities repeatedly impregnate their animals, letting them spend their lives in cages without human companionship. By adopting from a shelter, it means you don't support these cruel practices.

You get a great selection of animals!

Shelters offer a huge variety that you won't find anywhere else. There are many different breeds and personalities, you'll surely find the perfect pet for your home!

Shelters provide a lifetime resource of information!

The people who work at shelters are passionate individuals who have a wealth of knowledge to share. You join a community that can help you with any questions regarding your new pet.

You pay less!

Shelters provide low adoption fees that are less than the cost of purebred puppies/kittens.
